Hope they didn't feel like the Gov intended to be competing.

Friends,

In spite of the Governor's competing event, we had three cameras at our press conference: Fox 7, YNN and Telemundo. Our most important guest was Thanh Tan from the Texas Tribune who is writing a series over the next five weeks on family planning - Stayed and visited with pregnancy center directors for over an hour.

Life-affirming pregnancy center directors Terry Williams, San Marcos; Sarah Stone, San Antonio, Charity Farrar, San Antonio (two separate centers); Deborah McGregor, Waco; Karen Wistrand director of centers in Killeen, Copperas Cove, and Temple; and our host center director, Pam Cobern, Austin.

We had a 23 year old WHP patient who was able to clearly state she would not go to an abortion provider for services. A second WHP eligible woman said Planned

Parenthood was not equipped to handle her gynecological issues.

Cannot wait to see what makes it on.

Have a wonderful day!

Carol
